

I am AGAINST the proposed change that the bankers are asking for in Indiana. The no-call list in Indiana works very well and I do NOT want anyone being allowed to bother the quiet we now have in our homes. The bankers have many other methods of reaching prospects. The people of Indiana have spoken and we don't want the federal law to be applied to our state. The federal government has no business making changes to our laws and we DO NOT want the federal law to be applied. Tell the bankers to get over it and move on; find another way to rip off unsuspecting consumers with these "home equity" loans that leave people broke in the end.
